Highlights: Monique Cuthbertson

Hello my name is Monique Cuthbertson. I have been involved with HIPPY for at least four years, but it seems like longer. I learned about the program through my home daycare provider, after she gave the program raving reviews. I trust this provider, and I have always been interested in enriching the learning environment of my children.

HIPPY really helped to guide my teaching strategies for my children and opened many doors. Both my son and eldest daughter have completed all three years of HIPPY. They were excited every time we sat down to discuss each week's topics. Both of them graduated successfully and are excelling in grade school. My son Anthony was recently accepted into the gifted program.

As a 1st grader, he is reading at the end of a 2nd grade level. My youngest child Eboni is currently just beginning her third year of the program. And she has really shown a lot of progress since she started the program. My eldest daughter Samiya is also reading beyond her grade level. I would recommend this program to any and every one with a child ages 3 and 4.
